**Healing Hands (Action—1/Long Rest).** You can touch a creature and roll 2d4. The creature regains a number of HPs equal to the total rolled.

**Light Bearer.** Charisma is your spellcasting ability for the Light cantrip.

**Celestial Revelation (Bonus Action—1/Long Rest).** You can transform using one of the options below. This transformation lasts for 1 minute or until you end it. While transformed, when you deal damage with an attack or a spell on your turn, you deal an extra 2 damage to one target. The damage type is either Necrotic for Necrotic Shroud or Radiant for Heavenly Wings and Inner Radiance.

- **Heavenly Wings.** Two spectral wings sprout from your back temporarily. You gain a Fly Speed of 30.
- **Inner Radiance.** For the duration, searing light radiates from your eyes and mouth shedding Bright Light in a 10-foot radius and Dim Light for an additional 10 feet. At the end of each of your turns, each creature within 10 feet of you takes 2 Radiant damage.
- **Necrotic Shroud.** Creatures other than your allies within 10 feet of you must succeed on a Charisma saving throw (DC15) or become Frightened until the start of your next turn as your eyes briefly become pools of darkness, and flightless wings sprout from your back.

RACIAL TRAITS

**Darkvision.** You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light.

**Spellcasting.** You can use an Arcane Focus as your Spellcasting Focus. Whenever you gain a Sorcerer level, you can replace one of your cantrips with another Sorcerer cantrip of your choice.

**Innate Sorcery (Bonus Action—2/Long Rest).** For 1 minute, you can increase your spell save DC by 1 and have Advantage on the attack rolls of Sorcerer spells you cast.

**Font of Magic (Bonus Action).** You have 4 Sorcery Points. You can transform unexpended sorcery points into one spell slot (2 > 1st, 3 > 2nd) on your turn. Alternatively, you can expend one spell slot and gain a number of sorcery points equal to the slot's level (no action required).

**Metamagic.** You can use only one Metamagic option on a spell when you cast it, unless otherwise noted. You can replace one of your Metamagic options whenever you gain a Sorcerer level.

**Careful Spell (Sorcery Point).** When you cast a spell that forces other creatures to make a saving throw, choose up to 5 of those creatures. A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

**Quicken Spell (2 Sorcery Points).** When you cast a spell that has a casting time of an action, you can change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

**Wild Magic Surge (1/Turn).** You can roll 1d20 immediately after you cast a Sorcerer spell with a spell slot. If you roll a 20, roll on the Wild Magic Surge table to create a magical effect. If that effect is a spell, it is too wild to be affected by your Metamagic.

**Tides of Chaos (1/Long Rest).** Before you make a D20 Test roll, you can give yourself Advantage on it. After doing so but before finishing a Long Rest, if you cast a Sorcerer spell with a spell slot, you restore a use of this feature, but must roll on the Wild Magic Surge table.

| CASTING TIME | Action   |
| RANGE        | 30 feet  |

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

When you cast the spell, you can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial.

As a Magic action on your later turns, you can control the hand thus again. As part of that action, you can move the hand up to 30 feet.

The hand can't attack, activate magic items, or carry more than 10 pounds.

You can cast this spell through solid objects if you are familiar with the target and know it is beyond the barrier. Magical silence; 1 foot of stone, metal, or wood; or a thin sheet of lead blocks the spell.

On each of your subsequent turns, you can take a Bonus Action to deal 1d12 Lightning damage to the target automatically, even if the first attack missed.

The spell ends if the target is ever outside the spell's range or if it has Total Cover from you.

MASTERY

**Sap.** If you hit a creature with this weapon, that creature has Disadvantage on its next attack roll before the start of your next turn.

MASTERY

**Nick.** When you make the extra attack of the Light property, you can make it as part of the Attack action instead of as a Bonus Action. You can make this extra attack only once per turn.

An Arcane Focus is bejeweled or carved to channel arcane magic. A Sorcerer, Warlock, or Wizard can use such an item as a Spellcasting Focus.

A Dungeoneer's Pack contains the following items: Backpack, Caltrops, Crowbar, 2 flasks of Oil, 10 days of Rations, Rope, Tinderbox, 10 Torches, and Waterskin.

Many creatures in the worlds of D&D, especially those that dwell underground, have darkvision. Within a specified range, a creature with darkvision can see in darkness as if the darkness were dim light, so areas of darkness are only lightly obscured as far as that creature is concerned. However, the creature can't discern color in darkness, only shades of gray.

As a Magic action, you touch a creature and roll a number of d4s equal to your Proficiency Bonus. The creature regains a number of Hit Points equal to the total rolled. Once you use this trait, you can't use it again until you finish a Long Rest.

You know the *Light* cantrip. Charisma is your spellcasting ability for it.

When you reach character level 3, you can transform as a Bonus Action using one of the options below (choose the option each time you transform). The transformation lasts for 1 minute or until you end it (no action required). Once you transform, you can't do so again until you finish a Long Rest.

Once on each of your turns before the transformation ends, you can deal extra damage to one target when you deal damage to it with an attack or a spell. The extra damage equals your Proficiency Bonus, and the extra damage's type is either Necrotic for Necrotic Shroud or Radiant for Heavenly Wings and Inner Radiance.

Here are the transformation options:

- Heavenly Wings.
- Two spectral wings sprout from your back temporarily. Until the transformation ends, you have a Fly Speed equal to your Speed.
- Inner Radiance.
- Searing light temporarily radiates from your eyes and mouth. For the duration, you shed Bright Light in a 10-foot radius and Dim Light for an additional 10 feet, and at the end of each of your turns, each creature within 10 feet of you takes Radiant damage equal to your Proficiency Bonus.
- Necrotic Shroud.
- Your eyes briefly become pools of darkness, and flightless wings sprout from your back temporarily. Creatures other than your allies within 10 feet of you must succeed on a Charisma saving throw (DC 8 plus your Charisma modifier and Proficiency Bonus) or have the Frightened condition until the end of your next turn.

Drawing from your innate magic, you can cast spells.

**Cantrips.** You know four Sorcerer cantrips of your choice. *Light*, *Prestidigitation*, *Shocking Grasp* and *Sorcerous Burst* are recommended. Whenever you gain a Sorcerer level, you can replace one of your cantrips from this feature with another Sorcerer cantrip of your choice.

When you reach Sorcerer levels 4 and 10, you learn another Sorcerer cantrip of your choice, as shown in the Cantrips column of the Sorcerer Features table.

**Spell Slots.** The Sorcerer Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

**Prepared Spell of Level 1+.** You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose two level 1 Sorcerer spells. *Burning Hands* and *Detect Magic* are recommended.

The number of spells on your list increases as you gain Sorcerer levels, as shown in the Prepared Spells column of the Sorcerer Features table. Whenever that number increases, choose additional Sorcerer spells until the number of spells on your list matches the number in the Sorcerer Features table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Sorcerer, your list of prepared spells can include six Sorcerer spells of level 1 or 2 in any combination.

If another Sorcerer feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Sorcerer spells for you.

**Changing Your Prepared Spells.** Whenever you gain a Sorcerer level, you can replace one spell on your list with another Sorcerer spell for which you have spell slots.

**Spellcasting Ability.** Charisma is your spellcasting ability for your Sorcerer spells.

**Spellcasting Focus.** You can use an Arcane Focus as a Spellcasting Focus for your Sorcerer spells.

**Spell save DC** = 8 + your proficiency bonus + your Charisma modifier

**Spell attack modifier** = your proficiency bonus + your Charisma modifier

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

1. The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can use this feature twice, and you regain all expended uses of it when you finish a Long Rest.

You can tap into the wellspring of magic within yourself. This wellspring is represented by Sorcery Points, which allow you to create a variety of magical effects.

You have 2 Sorcery Points, and you gain more as you reach higher levels, as shown in the Sorcery Points column of the Sorcerer Features table. You can't have more Sorcery Points than the number shown in the table for your level. You regain all expended Sorcery Points when you finish a Long Rest.

You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.

**Converting Spell Slots to Sorcery Points.** You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required).

**Creating Spell Slots.** As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slots table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.

Any spell slot you create with this feature vanishes when you finish a Long Rest.

#### CREATING SPELLSLOTS

| Spell Slot Level | Sorcery Point Cost | Min. Sorcerer Level |
|------------------|--------------------|---------------------|
| 1                | 2                  | 2                   |
| 2                | 3                  | 3                   |
| 3                | 5                  | 5                   |
| 4                | 6                  | 7                   |
| 5                | 7                  | 9                   |

Because your magic flows from within, you can alter your spells to suit your needs; you gain two Metamagic options of your choice. You use the chosen options to temporarily modify spells you cast. To use an option, you must spend the number of Sorcery Points that it costs.

You can use only one Metamagic option on a spell when you cast it unless otherwise noted in one of those options.

Whenever you gain a Sorcerer level, you can replace one of your Metamagic options with one you don't know. You gain two more options at Sorcerer level 10 and two more at Sorcerer level 17.

#### Cost: 1 Sorcery Point

When you cast a spell that forces other creatures to make a saving throw, you can protect some of those creatures from the spell's full force. To do so, spend 1 Sorcery Point and choose a number of those creatures up to your Charisma modifier (minimum of one creature). A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

*Cost: 2 Sorcery Points*

When you cast a spell that has a casting time of an action, you can spend 2 Sorcery Points to change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

Your spellcasting can unleash surges of untamed magic. Once per turn, you can roll 1d20 immediately after you cast a Sorcerer spell with a spell slot. If you roll a 20, roll on the Wild Magic Surge table to create a magical effect.

If the magical effect is a spell, it is too wild to be affected by your Metamagic.

You can manipulate chaos itself to give yourself Advantage on one D20 Test before you roll the d20. Once you do so, you must cast a Sorcerer spell with a spell slot or finish a Long Rest before you can use this feature again.

If you do cast a Sorcerer spell with a spell slot before you finish a Long Rest, you automatically roll on the Wild Magic Surge table.
