SPEED, SENSES, & CONDITIONS

Draconic Ancestry. Your lineage stems from a Silver Dragon. Your Draconic Ancestry damage type is Cold.

Breath Weapon (Attack—3/Long Rest). You exhale magical energy in either a 15-foot Cone or a 30-foot Line that is 5 feet wide (choose the shape each time). Each creature in the area must make a Dexterity saving throw against a DC14. On a failed save, a creature takes 2d10 Cold damage, or half as much damage on a successful one.

Draconic Flight (Bonus Action—3/Long Rest). You sprout spectral wings on your back that last for 10 minutes or until you retract the wings (no action required) or have the Incapacitated condition. During that time, you have a Fly Speed of 30.

RACIAL TRAITS

Darkvision. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light.

Spellcasting. You can use an Arcane Focus as your Spellcasting Focus. Whenever you gain a Sorcerer level, you can replace one of your cantrips with another Sorcerer cantrip of your choice.

Innate Sorcery (Bonus Action—2/Long Rest). For 1 minute, you can increase your spell save DC by 1 and have Advantage on the attack rolls of Sorcerer spells you cast.

Font of Magic (Bonus Action). You have 5 Sorcery Points. You can transform unexpended sorcery points into one spell slot (2 > 1st, 3 > 2nd, 5 > 3rd) on your turn. Alternatively, you can expend one spell slot and gain a number of sorcery points equal to the slot's level (no action required).

Metamagic. You can use only one Metamagic option on a spell when you cast it, unless otherwise noted. You can replace one of your Metamagic options whenever you gain a Sorcerer level.

Careful Spell (Sorcery Point). When you cast a spell that forces other creatures to make a saving throw, choose up to 4 of those creatures. A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

Quicken Spell (2 Sorcery Points). When you cast a spell that has a casting time of an action, you can change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

Sorcerous Restoration (1/Long Rest). When you finish a Short Rest, you can regain up to 2 expended Sorcery points.

Draconic Resilience. When you aren't wearing armor, your base AC is 15.

This feature allows you to replace your Background Feature with an Origin Feat of your choice. Note. If your DM allows you to gain an Origin Feat on top of your Background Feature, instead of using this Optional Background Feature you should take the chosen Feat from the Additional Feat category of the Equipment menu.

BACKGROUND FEATURE

TRINKET

BACKGROUND STORY

ADDITIONAL FEATURES

[illegible][illegible]

Chill Touch

Necromancy Cantrip

CASTING TIME	Action
RANGE	Touch
DURATION	Instantaneous
COMPONENTS	V, S

Channeling the chill of the grave, make a melee spell attack against a target within reach. On a hit, the target takes 1d10 Necrotic damage, and it can't regain Hit Points until the end of your next turn.

Cantrip Upgrade. The damage increases by 1d10 when you reach levels 5 (2d10), 11 (3d10), and 17 (4d10).

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Frostbite

Evocation Cantrip

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S

You cause numbing frost to form on one creature that you can see within range. The target must make a Constitution saving throw. On a failed save, the target takes 1d6 cold damage, and it has disadvantage on the next weapon attack roll it makes before the end of its next turn.

The spell's damage increases by 1d6 when you reach 5th level (2d6), 11th level (3d6), and 17th level (4d6).

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

Mold Earth

Transmutation Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous or 1 hour (see below)
COMPONENTS	S

You choose a portion of dirt or stone that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways.

- If you target an area of loose earth, you can instantaneously excavate it, move it along the ground, and deposit it up to 5 feet away. This movement doesn't have enough force to cause damage.
- You cause shapes, colors, or both to appear on the dirt or stone, spelling out words, creating images, or shaping patterns. The changes last for 1 hour.
- If the dirt or stone you target is on the ground, you cause it to become difficult terrain. Alternatively, you can cause the ground to become normal terrain if it is already difficult terrain. This change lasts for 1 hour.

If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

Prestidigitation

Transmutation Cantrip

CASTING TIME	Action
RANGE	10 feet
DURATION	Up to 1 hour
COMPONENTS	V, S

You create a magical effect within range. Choose the effect from the options below. If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time.

Sensory Effect. You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor.

Fire Play. You instantaneously light or snuff out a candle, a torch, or a small campfire.

Clean or Soil. You instantaneously clean or soil an object no larger than 1 cubic foot.

Minor Sensation. You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.

Magic Mark. You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.

Minor Creation. You create a nonmagical trinket or an illusory image that can fit in your hand. It lasts until the end of your next turn. A trinket can deal no damage and has no monetary worth.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Shape Water

Transmutation Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous or 1 hour (see below)
COMPONENTS	S

You choose an area of water that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways.

- You instantaneously move or otherwise change the flow of the water as you direct, up to 5 feet in any direction. This movement doesn't have enough force to cause damage.
- You cause the water to form into simple shapes and animate at your direction. This change lasts for 1 hour.
- You change the water's color or opacity. The water must be changed in the same way throughout. This change lasts for 1 hour.
- You freeze the water, provided that there are no creatures in it. The water unfreezes in 1 hour.

If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

Chromatic Orb

1st-level evocation

CASTING TIME	Action
RANGE	90 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a diamond worth 50+ GP)

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Command

1st-level enchantment

CASTING TIME	Action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V

You speak a one-word command to a creature you can see within range. The target must succeed on a Wisdom saving throw or follow the command on its next turn. Choose the command from these options:

- **Approach.** The target moves toward you by the shortest and most direct route, ending its turn if it moves within 5 feet of you.
- **Drop.** The target drops whatever it is holding and then ends its turn.
- **Flee.** The target spends its turn moving away from you by the fastest available means.
- **Grovel.** The target has the Prone condition and then ends its turn.
- **Halt.** On its turn, the target doesn't move and takes no action or Bonus Action.

Using a Higher-Level Spell Slot. You can affect one additional creature for each spell slot level above 1.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Feather Fall

1st-level transmutation

CASTING TIME	Reaction, which you take when you or a creature you can see within 60 feet of you falls
RANGE	60 feet
DURATION	1 minute
COMPONENTS	V, M (a small feather or piece of down)

Choose up to five falling creatures within range. A falling creature's rate of descent slows to 60 feet per round until the spell ends. If a creature lands before the spell ends, the creature takes no damage from the fall, and the spell ends for that creature.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Ice Knife

1st-level conjuration

CASTING TIME	Action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S, M (a drop of water or a piece of ice)

You create a shard of ice and fling it at one creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 Piercing damage. Hit or miss, the shard then explodes. The target and each creature within 5 feet of it must succeed on a Dexterity saving throw or take 2d6 Cold damage.

Using a Higher-Level Spell Slot. The Cold damage increases by 1d6 for each spell slot level above 1.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Magic Missile

1st-level evocation

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You create three glowing darts of magical force. Each dart strikes a creature of your choice that you can see within range. A dart deals 1d4 + 1 Force damage to its target. The darts all strike simultaneously, and you can direct them to hit one creature or several.

Using a Higher-Level Spell Slot. The spell creates one more dart for each spell slot level above 1.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Shield

1st-level abjuration

CASTING TIME	Reaction, which you take when you are hit by an attack roll or targeted by the Magic Missile spell
RANGE	Self
DURATION	1 round
COMPONENTS	V, S

An imperceptible barrier of magical force protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from *Magic Missile*.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Alter Self

2nd-level transmutation

CASTING TIME	Action
RANGE	Self
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S

You alter your physical form. Choose one of the following options. Its effects last for the duration, during which you can take a Magic action to replace the option you chose with a different one.

Aquatic Adaptation. You sprout gills and grow webs between your fingers. You can breathe underwater and gain a Swim Speed equal to your Speed.

Change Appearance. You alter your appearance. You decide what you look like, including your height, weight, facial features, sound of your voice, hair length, coloration, and other distinguishing characteristics. You can make yourself appear as a member of another species, though none of your statistics change. You can't appear as a creature of a different size, and your basic shape stays the same; if you're bipedal, you can't use this spell to become quadrupedal, for instance. For the duration, you can take a Magic action to change your appearance in this way again.

Natural Weapons. You grow claws (Slashing), fangs (Piercing), horns (Piercing), or hooves (Bludgeoning). When you use your Unarmed Strike to deal damage with that new growth, it deals 1d6 damage of the type in parentheses instead of dealing the normal damage for your Unarmed Strike, and you use your spellcasting ability modifier for the attack and damage rolls rather than using Strength.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Dragon's Breath

2nd-level transmutation

CASTING TIME	Bonus Action
RANGE	Touch
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a hot pepper)

You touch one willing creature, and choose Acid, Cold, Fire, Lightning, or Poison. Until the spell ends, the target can take a Magic Action to exhale a 15-foot Cone. Each creature in that area makes a Dexterity saving throw, taking 3d6 damage of the chosen type on a failed save or half as much damage on a successful one.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 2.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Enhance Ability

2nd-level transmutation

CASTING TIME	Action
RANGE	Touch
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (fur or a feather)

You touch a creature and choose Strength, Dexterity, Intelligence, Wisdom, or Charisma. For the duration, the target has Advantage on ability checks using the chosen ability.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 2. You can choose a different ability for each target.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Rime's Binding Ice

2nd-level evocation

CASTING TIME	1 action
RANGE	Self (30-foot cone)
DURATION	Instantaneous
COMPONENTS	S, M (a vial of meltwater)

A burst of cold energy emanates from you in a 30-foot cone. Each creature in that area must make a Constitution saving throw. On a failed save, a creature takes 3d8 cold damage and is hindered by ice formations for 1 minute, or until it or another creature within reach of it uses an action to break away the ice. A creature hindered by ice has its speed reduced to 0. On a successful save, a creature takes half as much damage and isn't hindered by ice.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, increase the cold damage by 1d8 for each slot level above 2nd.

Level 1: Spellcasting (Sorcerer)

Fizban's Treasury of Dragons

Snilloc's Snowball Swarm

2nd-level evocation

CASTING TIME	1 action
RANGE	90 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a piece of ice or a small white rock chip)

A flurry of magic snowballs erupts from a point you choose within range. Each creature in a 5-foot-radius sphere centered on that point must make a Dexterity saving throw. A creature takes 3d6 cold damage on a failed save, or half as much damage on a successful one.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d6 for each slot level above 2nd.

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

Dispel Magic

3rd-level abjuration

CASTING TIME	Action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

Choose one creature, object, or magical effect within range. Any ongoing spell of level 3 or lower on the target ends. For each ongoing spell of level 4 or higher on the target, make an ability check using your spellcasting ability (DC 10 plus that spell's level). On a successful check, the spell ends.

Using a Higher-Level Spell Slot. You automatically end a spell on the target if the spell's level is equal to or less than the level of the spell slot you use.

Level 1: Spellcasting (Sorcerer)

Player's Handbook (2024)

Fear

3rd-level illusion

CASTING TIME	Action
RANGE	Self (30-foot Cone)
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a white feather)

Each creature in a 30-foot Cone must succeed on a Wisdom saving throw or drop whatever it is holding and have the Frightened condition for the duration.

A Frightened creature takes the Dash action and moves away from you by the safest route on each of its turns unless there is nowhere to move. If the creature ends its turn in a space where it doesn't have line of sight to you, the creature makes a Wisdom saving throw. On a successful save, the spell ends on that creature.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Fly

3rd-level transmutation

CASTING TIME	Action
RANGE	Touch
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (a feather)

You touch a willing creature. For the duration, the target gains a Fly Speed of 60 feet and can hover. When the spell ends, the target falls if it is still aloft unless it can stop the fall.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 3.

Level 3: Draconic Spells (Sorcerer)

Player's Handbook (2024)

Wall of Water

3rd-level evocation

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (a drop of water)

You conjure up a wall of water on the ground at a point you can see within range. You can make the wall up to 30 feet long, 10 feet high, and 1 foot thick, or you can make a ringed wall up to 20 feet in diameter, 20 feet high, and 1 foot thick. The wall vanishes when the spell ends. The wall's space is difficult terrain.

Any ranged weapon attack that enters the wall's space has disadvantage on the attack roll, and fire damage is halved if the fire effect passes through the wall to reach its target. Spells that deal cold damage that pass through the wall cause the area of the wall they pass through to freeze solid (at least a 5-foot square section is frozen). Each 5-foot-square frozen section has AC 5 and 15 hit points. Reducing a frozen section to 0 hit points destroys it. When a section is destroyed, the wall's water doesn't fill it.

Level 1: Spellcasting (Sorcerer)

Xanathar's Guide to Everything

RANGE

ATTACK

DAMAGE

RANGE

ATTACK

DAMAGE

RANGE

ATTACK

DAMAGE

MASTERY

Sap. If you hit a creature with this weapon, that creature has Disadvantage on its next attack roll before the start of your next turn.

MASTERY

Nick. When you make the extra attack of the Light property, you can make it as part of the Attack action instead of as a Bonus Action. You can make this extra attack only once per turn.

An Arcane Focus is bejeweled or carved to channel arcane magic. A Sorcerer, Warlock, or Wizard can use such an item as a Spellcasting Focus.

A Dungeoneer's Pack contains the following items: Backpack, Caltrops, Crowbar, 2 flasks of Oil, 10 days of Rations, Rope, Tinderbox, 10 Torches, and Waterskin.

MASTERY

Topple. If you hit a creature with this weapon, you can force the creature to make a Constitution saving throw (DC 8 plus the ability modifier used to make the attack roll and your Proficiency Bonus). On a failed save, the creature has the Prone condition.

- Ability:
- Intelligence
- Weight:
- 3 lb.
- Utilize:
- Identify a plant (DC 10)
- Craft:
- Antitoxin, Candle, Healer's Kit,
- Potion of Healing

A Bedroll sleeps one Small or Medium creature. While in a Bedroll, you automatically succeed on saving throws against extreme cold.

A Book contains fiction or nonfiction. If you consult an accurate nonfiction Book about its topic, you gain a +5 bonus to Intelligence (Arcana, History, Nature, or Religion) checks you make about that topic.

A Lamp burns Oil as fuel to cast Bright Light in a 15-foot radius and Dim Light for an additional 30 feet.

You can douse a creature, object, or space with Oil or use it as fuel, as detailed below.

Dousing a Creature or an Object. When you take the Attack action, you can replace one of your attacks with throwing an Oil flask. Target one creature or object within 20 feet of yourself. The target must succeed on a Dexterity saving throw (DC 8 plus your Dexterity modifier and Proficiency Bonus) or be covered in oil. If the target takes Fire damage before the oil dries (after 1 minute), the target takes an extra 5 Fire damage from burning oil.

Dousing a Space. You can take the Utilize action to pour an Oil flask on level ground to cover a 5-foot square area within 5 feet of yourself. If lit, the oil burns until the end of the turn 2 rounds from when the oil was lit (or 12 seconds) and deals 5 Fire damage to any creature that enters the area or ends its turn there. A creature can take this damage only once per turn.

Fuel. Oil serves as fuel for Lamps and Lanterns. Once lit, a flask of Oil burns for 6 hours in a Lamp or Lantern. That duration doesn't need to be consecutive; you can extinguish the burning Oil (as a Utilize action) and rekindle it again until it has burned for a total of 6 hours.

Traveler's Clothes are resilient garments designed for travel in various environments.

Many creatures in the worlds of D&D, especially those that dwell underground, have darkvision. Within a specified range, a creature with darkvision can see in darkness as if the darkness were dim light, so areas of darkness are only lightly obscured as far as that creature is concerned. However, the creature can't discern color in darkness, only shades of gray.

Your lineage stems from a Silver Dragon. You have resistance to Cold damage, and your Breath Weapon uses Cold as its damage type.

When you reach character level 5, you can channel draconic magic to give yourself temporary flight. As a Bonus Action, you sprout spectral wings on your back that last for 10 minutes or until you retract the wings or have the Incapacitated condition. During that time, you have a Fly Speed equal to your Speed. Your wings appear to be made of the same energy as your Breath Weapon. Once you use this trait, you can't use it again until you finish a Long Rest.

Drawing from your innate magic, you can cast spells.

Cantrips. You know four Sorcerer cantrips of your choice. *Light*, *Prestidigitation*, *Shocking Grasp* and *Sorcerous Burst* are recommended. Whenever you gain a Sorcerer level, you can replace one of your cantrips from this feature with another Sorcerer cantrip of your choice.

When you reach Sorcerer levels 4 and 10, you learn another Sorcerer cantrip of your choice, as shown in the Cantrips column of the Sorcerer Features table.

Spell Slots. The Sorcerer Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

Prepared Spell of Level 1+. You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose two level 1 Sorcerer spells. *Burning Hands* and *Detect Magic* are recommended.

The number of spells on your list increases as you gain Sorcerer levels, as shown in the Prepared Spells column of the Sorcerer Features table.

Whenever that number increases, choose additional Sorcerer spells until the number of spells on your list matches the number in the Sorcerer Features table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Sorcerer, your list of prepared spells can include six Sorcerer spells of level 1 or 2 in any combination.

If another Sorcerer feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Sorcerer spells for you.

Changing Your Prepared Spells. Whenever you gain a Sorcerer level, you can replace one spell on your list with another Sorcerer spell for which you have spell slots.

Spellcasting Ability. Charisma is your spellcasting ability for your Sorcerer spells.

Spellcasting Focus. You can use an Arcane Focus as a Spellcasting Focus for your Sorcerer spells.

Spell save DC = 8 + your proficiency bonus + your Charisma modifier

Spell attack modifier = your proficiency bonus + your Charisma modifier

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

- The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can use this feature twice, and you regain all expended uses of it when you finish a Long Rest.

You can tap into the wellspring of magic within yourself. This wellspring is represented by Sorcery Points, which allow you to create a variety of magical effects.

You have 2 Sorcery Points, and you gain more as you reach higher levels, as shown in the Sorcery Points column of the Sorcerer Features table. You can't have more Sorcery Points than the number shown in the table for your level. You regain all expended Sorcery Points when you finish a Long Rest.

You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.

Converting Spell Slots to Sorcery Points. You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required).

Creating Spell Slots. As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slots table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.

Any spell slot you create with this feature vanishes when you finish a Long Rest.

CREATING SPELLSLOTS

Spell Slot Level	Sorcery Point Cost	Min. Sorcerer Level
1	2	2
2	3	3
3	5	5
4	6	7
5	7	9

Because your magic flows from within, you can alter your spells to suit your needs; you gain two Metamagic options of your choice. You use the chosen options to temporarily modify spells you cast. To use an option, you must spend the number of Sorcery Points that it costs.

You can use only one Metamagic option on a spell when you cast it unless otherwise noted in one of those options.

Whenever you gain a Sorcerer level, you can replace one of your Metamagic options with one you don't know. You gain two more options at Sorcerer level 10 and two more at Sorcerer level 17.

Cost: 1 Sorcery Point

When you cast a spell that forces other creatures to make a saving throw, you can protect some of those creatures from the spell's full force. To do so, spend 1 Sorcery Point and choose a number of those creatures up to your Charisma modifier (minimum of one creature). A chosen creature automatically succeeds on its saving throw against the spell, and it takes no damage if it would normally take half damage on a successful save.

Cost: 2 Sorcery Points

When you cast a spell that has a casting time of an action, you can spend 2 Sorcery Points to change the casting time to a Bonus Action for this casting. You can't modify a spell in this way if you've already cast a level 1+ spell on the current turn, nor can you cast a level 1+ spell on this turn after modifying a spell in this way.

When you finish a Short Rest, you can regain expended Sorcery Points, but no more than a number equal to half your Sorcerer level (round down). Once you use this feature, you can't do so again until you finish a Long Rest.

The magic in your body manifests physical traits of your draconic gift. Your Hit Point maximum increases by 3, and it increases by 1 whenever you gain another Sorcerer level.

Parts of you are also covered by dragon-like scales. While you aren't wearing armor, your base Armor Class equals 10 plus your Dexterity and Charisma modifiers.
